

Committed to 100% Customer Satisfaction

**Serving Illinois, Kansas,
Missouri & Wisconsin**

**Not Sure Where to Start with 3D Printing?
Challenge Accepted - We'll Print a Part for You . .
On the HP Multi Jet Fusion 4200 Series**

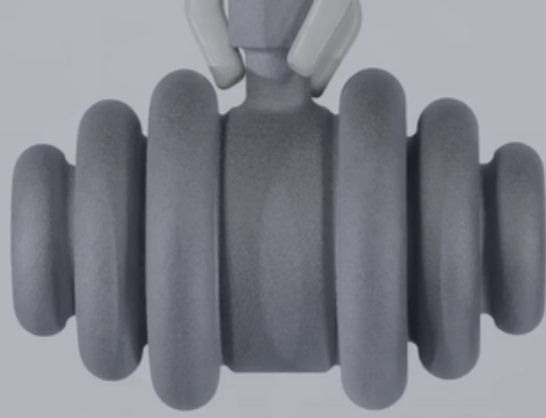

A Word from JABIL

(World's 3rd Largest Contract Manufacturer)

"We find that HP Multi Jet Fusion, which can act as a prototyping tool, as well as a production tool gives us the ability to go from prototyping to production really with just the flip of a switch. It can produce parts with the level of mechanical integrity, quality, consistency and speed that can really rival traditional manufacturing processes."

- John Dulchinos (Vice President - JABIL)

Functional Parts - Not a Problem
